

Consulate General of India

Saint-Denis, Reunion Island

Launch of Study in India Portal and e-student visas

Consulate General of India, Saint-Denis, Reunion Island brings to the attention of general public that the Government of India has launched 'Study in India(SII) Portal' (<https://studyinindia.gov.in/>) for registration of international students.

2. SII portal is a one-stop platform for international students, facilitating application submission, admission processes, and visa applications for those seeking to pursue regular, short-term, or long-term courses in Indian academic institutions or Higher Educational Institutions (HEIs). All foreign students who wish to study in India, will now have to mandatorily register on the SII portal and submit the required information on the portal. Upon registration, the portal generates a unique ID or 'SII-ID' which the VISA applicant has to attach with their VISA application at the Embassy.

3. Further, the Government of India has recently launched the e-Student Visa, enabling application of student visa using their SII-ID via the Indian Visa Portal (<https://indianvisaonline.gov.in/>)

CGI, Saint-Denis
